

User Validation Protocol

Starting January 2024, all users will need to go through a validation process prior to purchasing permits. This validation will be good for 2 years. To complete the user validation, all users must:

- Present DEERS ID card to Sportsman Services IN PERSON, verifying eligibility
 - Dependents aged 10 years and older must have an ID card for Active Duty families
 - Child Dependents aged 21-23 enrolled as a full-time college student must also present their college schedule as proof of benefit retention
 - NAF/DAC dependents must present marriage license (spouse) or birth certificate (children) with ID cards
- Present VA verification – either VA letter showing 100% rating or Oklahoma Tax exempt card showing 100% rating

The 100% VA users will only need to do this user verification once – all other users will repeat this process every two years. Failure to validate eligibility status will result in the user not being able to purchase annual Fort Sill permits.
